Section D

Judging Criteria

The five sections below should be used to explain the role of the individual nominee, and why you feel they should be considered for the relevant award category.

The questions that we ask are related to the core elements of the International Customer Service Standard (ICSS: 2015-2020). We'd recommend reviewing the Standard as a way of familiarising yourself with some of the issues and factors that may be considered in judging your submission. Where possible, please provide specific examples of how the nominee has delivered against the core elements of the Standard, as referenced below:

Learning and growth perspective

Culture

How do you create a culture of customer service and what do you put into it?

Operational perspective

Consistency

Service perspective

Financial perspective

Performance

We've created this document to allow you to complete the form quickly and easily, but we do set a maximum word count for your submission — no more than 2,500 words.

Any accompanying documentation or collateral that you feel is relevant is not included in this word count. Please supply your supporting documents separately when you submit your nomination online.

It is important to note that you can attach a maximum of three files (including this nomination form) when uploading your submission online.
